

How Avontus Gives Your Scaffolding Business a Competitive Edge

In such a saturated and highly competitive market, you need to stand out. Comprehensive scaffolding capabilities can give your business a competitive edge.

Build a Competitive Advantage Through Every Stage With Avontus

FACT

The global scaffolding market is expected to reach

\$81.2B by 2030.

STAGE 01

Bid Process

Develop a precise 3D scaffold plan and familiarize clients with your scaffold plan the exact way you have envisioned it in AR & VR. A crystal clear bid is likely a winning bid.

STAGE 02

Design Process

Create fast and detailed 3D scaffold designs with the drag-and-drop feature of common scaffolding designs and components. Reduce drawing time by up to 90%.

STAGE 03

Estimate Process

Cut time spent counting parts by up to 90%. Generate accurate bill of materials (BOM) estimates of your scaffold plan instantly. Time savings means cost savings.

STAGE 04

Review Process

Review final plans in AR and VR to detect any clashes; if all is well, clients can quickly approve the scaffold design.

STAGE 05

Inspect Process

Ensure scaffold safety and compliance effortlessly. From automated inspection reminders to detailed records, track the inspection history of your scaffolds with ease. Enjoy secure projects and complete peace of mind.

STAGE 06

Bill process

Billing doesn't have to be a headache. Generate detailed invoices effortlessly, integrate with major accounting software, and choose flexible billing methods. Effortlessly manage digital invoices and optimize financial operations.

STAGE 07

Dismantle Process

Make immediate key decisions, on or off-site. Receive updates on the status of your materials and equipment that are leaving the job site in real time. No more ambiguity.
